

DRIVING COMPETENCY ESSENTIALS

A comprehensive certified training course

Driving Competency Essentials covers road safety, eco-driving, vehicle inspection, off-road accessories and much more.

This certified training is composed of 3 levels:

- Understand Basic Driver’s Competencies
- Understand Your Vehicle
- Advanced Driver's Competencies

By taking all 3 Driver Competency Courses, upon passing all modules, the participant will receive a TGS approved certified theoretical driver competency course!

It is specifically designed for drivers that have driving experience of any type of vehicle. Principles that will be developed in this course can be applied to any drivers.

Recommendations are based on professional skills a driver should have working in the aid sector.

Offered by:

Vehicle types	Sedans
	Light vehicles
When	Self-paced Start immediately
Format	Online (computer or smartphone)
Online	5 hours, spread over 3 modules
Language	English and French

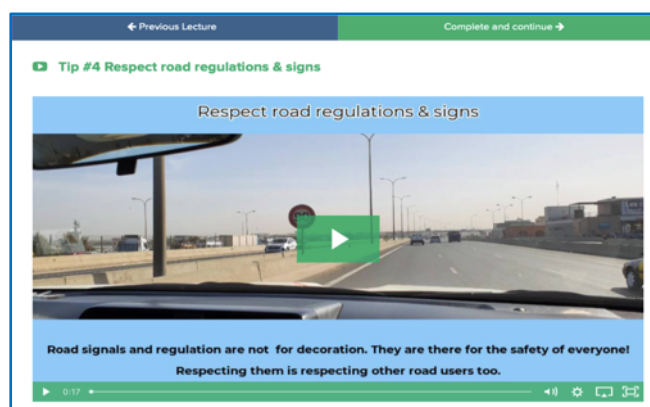

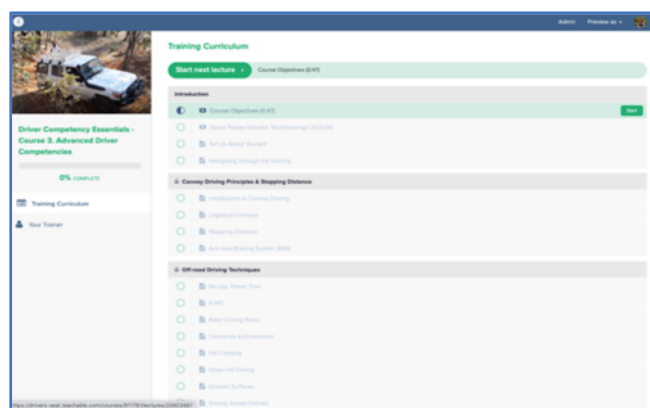

Only USD 75 per driver

In this training, we present real-life driving situations and hazard recognition scenarios that will help drivers recognize their own personal driving attitudes. It will encourage drivers to change their risky behind-the-wheel habits and encourage them to be safe and responsible road users.

- Prepare vehicle and its occupants for a journey
- Check and maintain your vehicle for a safe journey
- Define how to drive safely and responsibly in normal traffic conditions
- Explain the principle of driving safely and responsibly in off-road conditions
- Have the knowledge to safely use the recovery gear, accessories under off road conditions
- Review and adjust driving behaviour over lifetime

By purchasing Levels 1-3 for your drivers, they won't receive participation certificates, instead they will receive a TGS-Approved Certification of Drivers Competencies Essentials.

Category	# of Drivers	Price per Driver
Normal	1-9	\$400 \$75
Bronze (5%)	10-29	\$71.25
Silver (7%)	30-49	\$69.75
Gold (15%)	50 -199	\$63.75
Platinum (20%)	200+	\$60

Driver's Seat is a 100% online training platform, which allows your drivers to gain knowledge at their own pace.

Drivers will receive access for 3 months and managers will receive personalised reports to monitor training completion.

"When driver is faced with unexpected difficulties to be overcome in isolated areas, this training completes all the technical shortcomings not to mention the rescue tools"

Combine the online training with the Face to Face Training and save on costs

The online training can be taken separately, or it can be combined with a 3 day face-to-face training! See the example to calculate your savings!

Choice 1: Online and face-to-face training

The drivers start their online training whenever they are ready. The training is self-paced. Start at any moment, to shorten the time of being away from operations.

Your organisation would contact TGS to arrange a mutually agreed date and location so that your drivers can partake in the 3 day practical course. This 3 day course would put together the learnt theory into practical driver exercises.

Choice 2: Face-to-face training only

Instead of taking the online training, a trainer from TGS will spend 5 days on site at your organisation. Day 1-2 will be classroom training, day 3-5 will consist of practical training.

Cost Breakdown	Online + Face-to-face training	Face-to-face training only
Online Training	\$750 (10 drivers)	-
Face-to-face training	\$2.640 (3 days)	\$4.400 (5 days)
Travel + visa	\$2.300	\$2.300
Total	\$5.690	\$6.700

Adding the online training, will save you time and money!

About TGS

Based in Gibraltar, TGS is the stocking arm of Toyota's Direct Sales Scheme set up for use by the UN, GO and NGOs for their projects in developing countries. As a result customers benefit from Direct Sales Scheme pricing, official Toyota warranty and the delivery of the vehicles suitable to the country of destination.

TGS provides driver training, basic maintenance, fleet and workshop management, to ensure that your fleet is run safely and efficiently.
